# PROJECTS

## EduAtlas | [GitHub](#)

Mobile application for global university search

- Developed a cross-platform mobile application using Flutter
- Implemented comprehensive university search functionality
- Created intuitive user interface with smooth navigation
- Ensured compatibility across Android and iOS platforms

## TrackerMate | [GitHub](#)

Mobile phone tracking application

- Built a Flutter-based mobile tracking solution
- Integrated Firebase backend for user data management
- Implemented real-time device tracking features
- Designed user-friendly interface for effortless navigation

## NGO Website | [Live Demo](#)

Responsive organization website

- Developed responsive website using HTML, Tailwind CSS, and JavaScript
- Implemented modern design principles for enhanced user experience
- Optimized performance across all device types

## E-commerce Platform | [Live Demo](#)

Full-stack e-commerce solution

- Built using HTML, Tailwind CSS, and JavaScript
- Integrated Firebase backend for data management
- Implemented complete CRUD functionality
- Developed responsive design for multi-device compatibility

## Cultural Website | [Demo](#)

Kaba and Slit festival showcase

- Created an informative platform highlighting cultural heritage
- Implemented responsive design principles
- Enhanced user engagement through interactive elements
